**BACKYARD OASIS:
MAKE YOUR OUTDOOR SPACE LIVE BETTER**

The heat is on, and the pool is calling. Whether you're ready to splash in the water or relax in the shade, this year's array of summertime products will make sure your time poolside is both fun and fashionable.

Furniture takes a shapely turn with chaise longues that put curves into the silhouettes, much like the lines that surface when movement turns water into waves. Comfortable chairs and pretty little ceramic stools make ideal spots to perch with a refresher

(and we're showing you the accoutrements to make delicious and thirst-quenching drinks happen). With outdoor throws and pillows at the ready, the leisure experience is extra luxurious.

Getting ready for the pool doesn't magically happen without effort. Simple stripes are classic on beach towels. Consider a statement pattern—inspired by dazzling motifs that claim attention inside—carried to the pool in a stylish beach bag, of course.

Summer is here. Go bright and bold and stay cool in the pool.
