STORAGE COVER

INSTRUCTIONS

1 Prepare the Cover

- Ensure the custom storage cover is ready with the solid piece of metal conduit along one edge.

2 Cover the Umbrella

- Place the open cover over the finial of the umbrella.
- Pull the protective sleeve down, enclosing the umbrella fully.
- Ensure the cover extends over the exposed pole area down to the top of the base tube.

3 Secure the Cover

- Zip up the front of the cover to close it.
- Reverse the process to remove the storage cover: unzip the front, pull the protective sleeve up, and remove the cover from the finial.
