UMBRELLA + DESIGNER FABRIC
Bespoke outdoor umbrellas by
Santa Barbara Designs

Designers know, but did you? Any umbrella by Santa Barbara Designs can be lined with your choice of fabric. We asked two desert style icons, Martyn Lawrence Bullard and Trina Turk, to pair their signature fabrics with one of these shades. "The fun and playful nature of my Performance Fabrics always has an exotic twist," Bullard says, "which is the perfect pairing to these chic umbrellas, making them as unique as they are beautiful." His Kabba Kabba print appears inside a Regency Double Decker Umbrella. "The Trina Turk for Schumacher Indoor/Outdoor fabric collection was inspired by the Palm Springs cocktails-by-the-pool lifestyle, so the prints are a natural fit for adding an extra bit of zest to a custom Santa Barbara Designs umbrella," Turk says. "The reveal of pattern is a vibrant surprise." Her Sunbeam print in Horizon Blue appears in a Paseo Umbrella with a PS Modern Valance.
