

Mirasol® Umbrella

MIRASOL® UMBRELLA

The celestial dome shape of the Mirasol® umbrella evokes the timeless elegance of old-world gardens and European estates. Named after the Spanish word meaning “looking at the sun,” this distinctive umbrella captures the romance of a bygone era while delivering modern performance and durability.

The Mirasol’s graceful silhouette sets it apart from traditional umbrella designs. Its curved canopy creates an almost architectural presence in any outdoor space, transforming ordinary patios into sophisticated outdoor rooms reminiscent of grand European terraces and estate gardens.

The Mirasol’s distinctive form lends itself beautifully to customization, allowing you to create exactly the look you envision. Whether you choose a clean, unadorned edge or add one of our specialty valances with coordinating braid trim or luxurious fringe, the result is an umbrella that reflects your personal style.

For those who appreciate classical design with a contemporary edge, the Mirasol offers something truly special—an umbrella that doesn’t just provide shade, but creates an atmosphere of refined elegance that elevates any outdoor setting.
