

Paseo® Umbrella

PASEO® UMBRELLA

With its welcoming personality, the Paseo® umbrella has earned the trust of private homeowners, luxury hotels, upscale restaurants, and professional offices alike. This collection represents the perfect balance of sophistication and accessibility - elegant enough for luxury resorts, yet perfectly suited for discerning homeowners who want that same level of quality in their outdoor spaces.

The Paseo was engineered with serious durability in mind, using aluminum construction with eight standard powder coat color options. The frame is coated with an anodized finish prior to powder coating, ensuring lasting beauty in any climate.

What sets Paseo apart from typical market umbrellas is our commitment to quality components. While most umbrellas rely on plastic parts that crack and fail, Paseo features aluminum hubs and stainless steel arm connectors throughout. These superior materials deliver the smooth, reliable operation that professionals trust and homeowners enjoy for years.

Sleek and refined, the Paseo adapts to any setting with effortless style. Available in square, hexagonal and rectangular shapes, this versatile collection delivers the same quality and elegance that luxury properties depend on.
