

Vogue® Umbrella

# VOGUE® UMBRELLA

Fresh off the runways of Paris and Milan, Vogue is the fashion-forward choice for color-conscious homeowners who want to make a sophisticated style statement.

The Vogue collection was developed for clients who follow design trends and aren't satisfied with predictable color choices. The Vogue canopy features bold custom stripes created by seaming together two solid colors of our Regatta fabric, resulting in thousands of possible color combinations that let you create your own signature look.

Whether you choose subtle, tonal combinations for understated elegance or dramatic contrasting hues for maximum impact, Vogue ensures your outdoor space reflects your personal style vision.

Vogue incorporates a sleek aluminum frame from the Paseo collection, with eight standard powder coat color options. The frame is coated with an anodized finish prior to powder coating. Aluminum hubs and stainless steel arm connectors further fortify this sleek, refined umbrella. Vogue is available in square and hexagonal shapes.

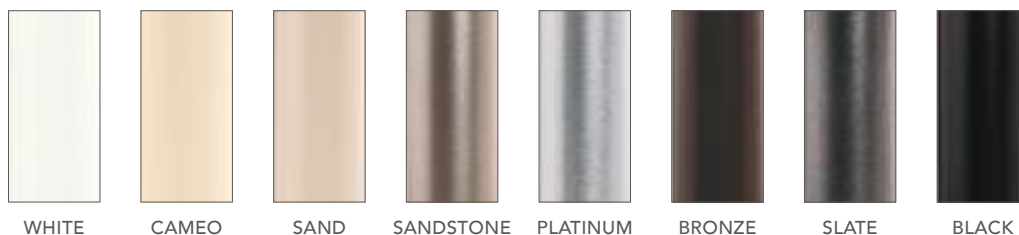

Vogue® Umbrella
